

Matrix Service Company Reports First Quarter 2020 Results

November 6, 2019

Announces share repurchase of up to \$20.0 million

TULSA, Okla., Nov. 06, 2019 (GLOBE NEWSWIRE) -- Matrix Service Company (Nasdaq: MTRX), a leading contractor to the energy and industrial markets across North America, today reported financial results for its first quarter of fiscal 2020.

Key highlights:

- Revenue increased by 6.2% to \$338.1 million compared to \$318.5 million in the first guarter of the prior fiscal year
- Fully diluted earnings per share increased 175.0% to \$0.22 in the first quarter compared to \$0.08 in the first quarter of the prior fiscal year
- Backlog at \$1.082 billion compared to \$1.098 billion at June 30, 2019; book-to-bill of 1.0 for the quarter on \$321.7 million of project awards, led by Storage Solutions and Oil Gas & Chemical
- Liquidity increased by 27.5% to \$308.3 million at September 30, 2019 from \$241.9 million at June 30, 2019, and by 138.5% from \$129.3 million at September 30, 2018
- Affirms guidance of \$1.40 to \$1.55 billion of revenue and earnings per fully diluted share of \$1.10 to \$1.40

"Our first quarter results were led by continued strong operating performance in our Storage Solutions and Industrial segments. These strong results were partially offset by a lower than anticipated margin on a project in the Oil Gas & Chemical segment and continued under-performance in the power delivery portion of our Electrical Infrastructure segment," said John R. Hewitt, President and Chief Executive Officer.

"The diversity of our business coupled with our current backlog and project opportunity pipeline, supports the current fiscal year guidance and longer-term growth strategy. Looking forward, our healthy liquidity profile will allow us to both return value to shareholders through our planned share repurchase, which will occur throughout the remainder of the second quarter, as well as leverage our broad capabilities to grow the business."

First Quarter Fiscal 2020 Results

Consolidated revenue was \$338.1 million for the three months ended September 30, 2019, compared to \$318.5 million in the same period in the prior year. On a segment basis, consolidated revenue increased in the Storage Solutions and Industrial segments by \$37.3 million and \$13.4 million, respectively. These increases were partially offset by decreases in consolidated revenue in the Oil Gas & Chemical and Electrical Infrastructure segments of \$18.0 million and \$13.2 million, respectively.

Consolidated gross profit increased to \$32.5 million in the three months ended September 30, 2019 compared to \$23.4 million in the same period in the prior year. The gross margin increased to 9.6% in the three months ended September 30, 2019 compared to 7.4% in the same period in the prior year. The fiscal 2020 gross margin was positively impacted by strong project execution in the Storage Solutions segment. The Oil Gas & Chemical segment performed well with the exception of under recovery of construction overhead costs caused by lower revenue and lower than expected margin on one project. The performance of the power delivery portion of the Electrical Infrastructure segment was impacted by a transmission and distribution project charge and low revenue volumes which led to under recovery of construction overhead costs.

Consolidated SG&A expenses were \$23.7 million in the three months ended September 30, 2019 compared to \$21.2 million in the same period in the prior year. This increase was primarily due to improved operating results, which led to higher incentive compensation expense, and investments in personnel to support the ongoing growth of our business.

Our effective tax rate for the three months ended September 30, 2019 was 30.6% compared to 16.4% for the same period a year ago. The effective tax rate in fiscal 2020 was negatively impacted by \$0.3 million of excess tax expense related to the vesting of stock-based compensation. The effective tax rate for the three months ended September 30, 2018 was positively impacted by \$0.3 million of excess tax benefits related to the vesting of stock-based compensation. We still expect our effective tax rate to be approximately 27.0% for the remainder of the fiscal year.

For the three months ended September 30, 2019 net income was \$6.2 million, or \$0.22 per fully diluted share, compared to \$2.3 million or \$0.08 per fully diluted share in the prior year.

Backlog

Backlog at September 30, 2019 was \$1.082 billion compared to \$1.098 billion at June 30, 2019. The quarterly book-to-bill ratio was 1.0 on project awards of \$321.7 million.

Financial Position

At September 30, 2019 the Company had total liquidity of \$308.3 million, which includes a cash balance of \$139.9 million and availability under the credit facility. This represents an increase of \$66.4 million since June 30, 2019. The Company's outstanding borrowings were \$11.4 million at September 30, 2019.

The Company announces a share repurchase of up to \$20.0 million to be executed through open market purchases of the Company's common shares during the remainder of the second quarter of fiscal 2020.

Outlook and Guidance

The outlook for our Storage Solutions and Oil Gas & Chemical segments remain positive. We expect Storage Solutions volumes to remain strong throughout the fiscal year. Increasing work on capital construction projects as well as increased maintenance and repair work should lead to increasing Oil Gas & Chemical revenue as we move through the rest of the fiscal year. Our Industrial segment, which has performed well over the last two years, will likely soften in the second half of the year due to weakness in pricing of certain commodities. However, our long-term outlook for this segment remains positive. Finally, in our Electrical Infrastructure segment, we continue to focus on operating improvements in the power delivery portion of the business.

Although uncertainty surrounding the current economic and political environment can impact the timing and volume of project awards and starts, we do not anticipate any significant impact on the current fiscal year. Therefore, the Company is maintaining fiscal 2020 guidance of revenue between \$1.40 billion and \$1.55 billion and earnings per fully diluted share of between \$1.10 and \$1.40.

Backlog

We define backlog as the total dollar amount of revenue that we expect to recognize as a result of performing work that has been awarded to us through a signed contract, limited notice to proceed or other type of assurance that we consider firm. The following arrangements are considered firm:

- fixed-price awards;
- minimum customer commitments on cost plus arrangements; and
- certain time and material arrangements in which the estimated value is firm or can be estimated with a reasonable amount of certainty in both timing and amounts.

For long-term maintenance contracts with no minimum commitments and other established customer agreements, we include only the amounts that we expect to recognize as revenue over the next 12 months. For arrangements in which we have received a limited notice to proceed, we include the entire scope of work in our backlog if we conclude that the likelihood of the full project proceeding is high. For all other arrangements, we calculate backlog as the estimated contract amount less revenues recognized as of the reporting date.

The following table provides a summary of changes in our backlog for the three months ended September 30, 2019:
