TULSA, OK iV May 7, 2010 iV Matrix Service Co. (Nasdaq: MTRX), a leading industrial services company, today reported its financial results for the three and nine months ended March 31, 2010.

Third Quarter of Fiscal 2010 Results

Net income for the third quarter of fiscal 2010 was \$0.1 million, or \$0.00 per fully diluted share on total revenues of \$122.0 million. Third quarter operating results included non-routine charges of \$0.10 per fully diluted share related to write-offs of \$2.9 million on acquired claim receivables, a charge of \$0.7 million related to a legal matter and a charge of \$0.6 million related to collection costs on claims acquired in a recent acquisition. Total revenues were \$146.3 million and net income was \$4.2 million, or \$0.16 per fully diluted share, in the comparable period a year earlier.

Michael J. Bradley, president and CEO of Matrix Service Company said, "Although our markets and customers are continuing to experience the effects of the recession, our financial position is strong and has not limited our ability to pursue new awards, or to execute projects safely and effectively. We believe our long-term growth strategy and cost structure have positioned us to capitalize on opportunities that we see emerging when our core markets improve."

Revenues for the Construction Services segment were \$76.3 million, compared with \$79.9 million in fiscal 2009. The decrease of \$3.6 million was primarily due to continued delays in project awards and a decline in our customers' capital spending. Revenues for the Repair and Maintenance Services segment were \$45.7 million in fiscal 2010 compared to \$66.4 million in fiscal 2009; the decline was due to a lower volume of recurring repair and maintenance work.

Consolidated gross profit decreased from \$18.0 million in fiscal 2009 to \$13.3 million in fiscal 2010. The decrease of \$4.7 million was due to lower business volume, lower direct gross margins and a non-routine charge relating to a legal matter of \$0.7 million, which decreased gross margins to 10.9% in fiscal 2010 compared to 12.3% a year earlier. Consolidated SG&A expenses were \$13.2 million in fiscal 2010 compared to \$10.9 million for fiscal 2009. The change in SG&A expenses is due to write-offs of \$2.9 million on acquired claim receivables and a charge of \$0.6 million related to collection costs on claims acquired in a recent acquisition, partially offset by cost reductions.

Revenues for the Repair and Maintenance Services segment were \$175.5 million in fiscal 2010 compared to \$215.1 million in fiscal 2009. The decline was due to lower volume of recurring repair and maintenance work. Consolidated gross profit decreased from \$71.0 million in fiscal 2009 to \$49.2 million in fiscal 2010. The reduction of \$21.8 million was due to lower business volume, lower direct gross margins and a non-routine charge related to a legal matter of \$2.0 million, which decreased gross margins to 12.0% in fiscal 2010 compared to 13.9% in fiscal 2009. Consolidated SG&A expenses were \$34.7 million in fiscal 2010 compared to \$34.8 million for fiscal 2009.
